Tanzania is a land of peace, great natural beauty, warm hospitable people, and some challenges:

HEALTH: *Life expectancy in Tanzania is 52 years. Life-threatening illnesses include TB, malaria, acute respiratory infections, and diarrheal diseases. HIV infection rate is declining (*6.2%) but the pandemic has a significant impact on families and communities. **FOT helps support projects for clean water, better sanitation, improved nutrition, community health programs and health education.**

EDUCATION: Tanzania's literacy rate is *69%. Primary school enrollment has increased to *97%, however, secondary school education is still limited. **FOT helps support projects to provide adequate education for all.**

ECONOMY: Tanzania's has a population of *41 million. **FOT helps support vocational training schools and projects, small businesses and micro-credit programs.**

ENVIRONMENT: Tanzania has allocated at least 30% of its total land area for conservation and national parks. **FOT helps support projects to promote eco-friendly practices, such as reforestation and preventing soil erosion.**

*as of 2010

Villagers cut soap made in a safer, more efficient way in Kigoma.
